

## STATE STONES, NATIONAL CRYSTALS AND EARTH HEALING

In the course of the research for my latest book, I came across a great many state or country crystal connections but haven't had the space to include these in the book. A country or national stone supports the energy of that country. Such connections are useful because they can be incorporated into earth healing grids, whether placed on the actual ground or on a site on a map. Many of the crystals also have archangel or saint links as well and these can be invoked to assist with the healing. Remember that crystals should always be cleansed and activated before laying out a grid.

### **Agate**

Agate is state stone of Kentucky, Maryland, Louisiana, Minnesota, Montana, Nebraska, New York, South Dakota, Tennessee and Oregon and a country crystal for Denmark and Panama. A stone for the Shekinah, the divine feminine and merciful Queen of Heaven it is also a crystal of Archangel Michael.

### **Ajoite**

Although not a country crystal, Ajoite has profound links with South Africa as the mine has now flooded sending its vibrations to heal the earth. In Arkansas Ajoite is found in conjunction with Shattuckite. Ajoite invokes all the archangels.

### **Amber**

Amber is a national stone for France, Sicily and Romania.

### **Amethyst**

Dedicated to St Valentine, Amethyst is a traditional stone for Thursday, state stone for South Carolina and national stone for Uruguay. It symbolizes the apostles Judas and Matthew and Archangel Raphael.
